OK talk to you then.

Also, I think I mentioned this before but wanted to make sure that the LWG was aware that Scott Learn of the Oregonian requested recent information on the project, status of the FS, alternatives screening, and recent correspondence. I provided the LWG Dec 14 FS check-in information, FS tools memos, April 12 check-in info, and some of the correspondence related to schedule & FS starting with Dec 2010. He said he's trying to "catch up".

Thanks Chip, let's aim for 12:30 because my morning call may go long, and it will also provide some time to get lunch.

I'll have Jen send out a meeting notice with a call-in number & code.  
Thanks, JimM

Kristine is available between 10 and 2 tomorrow, so 11:30 am (or noon or 12:30 pm) will work.

Conference Call  
tomorrow

Chip,

I just realized my other conference call tomorrow is from 10:30 to 11:30. Can we schedule our conference call with Carl and Kristine at 9:00 or 11:30? Jim.
